# **ERDOGAN'S CRIMES AGAINST HUMANITY**

## **ILLEGAL GOVERNMENT PROGRAMS IN TURKEY**

### **1. PEOPLE WHO FIND OUT GOVERNMENT SECRETS ARE MADE MENTALLY RETARDED**

Turkish police will forcibly take the subject to a government hospital, where they are injected with a neurotoxic drug causing brain damage.

### **2. SUSPECTED TERRORISTS ARE EXTRAJUDICIALLY KILLED OR GASSED (WHY ARE THOUSANDS OF PEOPLE MISSING IN TURKEY?)**

For a killing, prior authorization is required from the Turkish Presidency. Once this is obtained, the target is extrajudicially killed by mafia hitmen working for the state. Alternatively, they are placed in a gas room with ammonia pumped in to cause permanent brain damage.

### **3. ORGANIZED STALKING PROGRAMS TARGETING THE OPPOSITION**

The subject's electronic devices will be infected with malware, and fake thugs will threaten the target on the street. Microwave harassment and pedophile rumors are also common. This program is referred to as "gangstalking" and exists in many other countries.
